Oil Seed Press Machine

Machine type	Cold Press
Nominal Seed Capacity	20 kg/hr
Engine power	2.2 kW
Voltage	230 V, single phase
Electrical Power Consumption	1 kW/h
Cylinder Diameter	70 mm
Dimensions (LxWxH)	1060*480*680 mm
Weight	85 kg
Rpm(Revolutions per minute)	5-60 1/min
Guarantee	12 months

- Usable in stores, workshops, home jobs, laboratories, farm shops
- Virgin oil extraction without solvents and refining methods
- High efficiency
- Compatible with different climatic condition
- Easy adjustment for different seed types
- No need to add moisture or any external additive
- Long lifetime
- Easy to take apart and clean
- Silent operation
- Low cost preservation
- Digital temperature control system
- Emergency stop system
- Low electrical energy consumption
- Residual oil content of cake up to 6%
- Oil temperature 45 degree centigrade
- Cake output as a pallet
- Different nozzle sizes available
- Capable of running 24/7

- **Seed Application:** Sunflower, Pumpkin, Soya bean, Safflower, Prime Rose, Coffee Bean, Mustard, Sesame, Rapeseed, Blackseed, Cotton, Peanut, Hazelnut, Chia, Almond, Walnut, Argan, Coconut, Poppy-seed, Nutmeg, Tomato Seed, Jatropha, Linseed, Hemp, Lemon Seed , Canola, Apple Seed, Pomegranate Seed, Grape Seed and so on.
